IMPACT TEST PERMISSION FORM & MEDICAL RELEASE

**MCMI - Maine Concussion Management Initiative**

**ImPACT test permission form & medical release** Dear Parent/Guardian,

Freeport High School is currently implementing an innovative program for evaluating and treating mild traumatic brain injuries (mTBI), more commonly known as concussions. In order to better manage concussions sustained by our student-athletes, Freeport High School has partnered with the Maine Concussion Management Initiative (MCMI) to acquire a software tool called ImPACT™ (Immediate Post Concussion Assessment and Cognitive Testing). Additional information about ImPACT™ can be found at: [www.impacttest.com](http://www.impacttest.com).

ImPACT testing is available to all students that participate in sports. This permission form allows our athletic trainer to schedule an IMPACT test for your son/daughter before the beginning of the sports season. Students only need to take the test once a year. The test is set up in a "video-game" format and takes about 20-25 minutes to complete. The ImPACT™ test is a pre-season physical for the brain. It records information such as memory, reaction time, speed, and concentration, but it is NOT an IQ test. The ImPACT™ test is noninvasive and poses no risk to your child. Taking an ImPACT baseline test may help your child understand the range of cognitive problems that can happen from head injuries, and may also assist in the diagnosis of a concussion should a head injury occur and follow-up tests be taken.

If your child suffers a head injury and a concussion is suspected, your child will be referred to a physician or clinician for an evaluation. The physician or clinician may recommend that your child take the post-injury ImPACT™ test. Your child's baseline (pre-season) and post-injury test data, if any, will be maintained on a secure server by ImPACT™. Your child's test data will only be available to his/her physician or clinician, except as described below.

Your child's test data may be available to persons other than the physician or clinician evaluating your child, as follows:
