#### IMPORTANT INFORMATION FOR PARENTS REGARDING SPORT PHYSICALS

ONLY the forms from the school Athletic Department website will be accepted. <u>Please do not use forms provided by your doctor's office as they may be outdated.</u>

<u>ALL</u> student athletics MUST complete the newly revised Health History Update Questionnaire that contains questions that regard COVID-19.

When student athlete physicals have been cleared by their personal physician, the completed physical forms must be read and approved by our School Physician, whose job it is to see that this paperwork meets the New Jersey State requirements for Preparticipation Physical Evaluation. Time should be allotted for the physical to be approved by the School Doctor.

Before leaving the Doctor's Office, please check that all the following items are complete:

- Vital signs must be completed and within normal limits.
- Visual Acuity must be completed. Vision must be screened with eyeglasses if prescribed.
- The appropriate "Cleared" box must be checked by the Physician.
- "Date of Exam" is the date that the actual physical was performed, not the date the paperwork is written.
- Physician's Stamp is required on each page near the Physician's signature.
- All Health Care Providers are required to complete the Professional Development Cardiac Assessment before performing
  any student-athlete's physical examination. COMPLETED CARDIAC ASSESSMENT PROFESSIONAL
  DEVELOPMENT MODULE must reflect the date that the physician actually took this professional development course,
  not the date of the physical exam. A copy of the professional development certificate should be attached if available.
- The Health History Form is to be filled out and signed by the parent and athlete prior to seeing the physician, and brought to the physician at the time of the physical exam.
- All "yes" and "no" items must be answered on the History Form. If a response is "yes", an explanation must be given that
  indicates the issue has been resolved, including the date the issue has been resolved. MD clearance notes may be needed
  and should be included.
- Signatures are required of <u>BOTH</u> the parent and the athlete.

The newly revised Health History Update Questionnaire is to be completed when a new sport season begins and the student has a current physical that had already been completed and cleared by the School Physician.

ATTENTION PARENT/GUARDIAN: The preparticipation physical examination (page 3) must be completed by a health care provider who has completed the Student-Athlete Cardiac Assessment Professional Development Module.

#### HISTORY FORM

Date of ExamName			Date of birth		
Sex Age Grade Scl	nool		Sport(s)		
Medicines and Allergies: Please list all of the prescription and ove	r-the-co	ounter r	medicines and supplements (herbal and nutritional) that you are currently	taking	
Do you have any allergies? ☐ Yes ☐ No If yes, please ide ☐ Medicines ☐ Pollens	ntify sp	ecific a	llergy below. □ Food □ Stinging Insects		
Explain "Yes" answers below. Circle questions you don't know the ar	swers t	to.			
GENERAL QUESTIONS	Yes	No	MEDICAL QUESTIONS	Yes	No
Has a doctor ever denied or restricted your participation in sports for any reason?			Do you cough, wheeze, or have difficulty breathing during or after exercise?	103	NO
Do you have any ongoing medical conditions? If so, please identify below:      Asthma			27. Have you ever used an inhaler or taken asthma medicine?      28. Is there anyone in your family who has asthma?		
Have you ever spent the night in the hospital?			29. Were you born without or are you missing a kidney, an eye, a testicle (males), your spleen, or any other organ?		
Have you ever had surgery?			30. Do you have groin pain or a painful bulge or hernia in the groin area?		
HEART HEALTH QUESTIONS ABOUT YOU	Yes	No	31. Have you had infectious mononucleosis (mono) within the last month?		
5. Have you ever passed out or nearly passed out DURING or			32. Do you have any rashes, pressure sores, or other skin problems?		
AFTER exercise?			33. Have you had a herpes or MRSA skin infection?		
6. Have you ever had discomfort, pain, tightness, or pressure in your chest during exercise?			34. Have you ever had a head injury or concussion?		
7. Does your heart ever race or skip beats (irregular beats) during exercise?			35. Have you ever had a hit or blow to the head that caused confusion,		
8. Has a doctor ever told you that you have any heart problems? If so,			prolonged headache, or memory problems?  36. Do you have a history of seizure disorder?		
check all that apply:  ☐ High blood pressure ☐ A heart murmur			37. Do you have headaches with exercise?		
☐ High cholesterol ☐ A heart infection			38. Have you ever had numbness, tingling, or weakness in your arms or		
☐ Kawasaki disease Other:			legs after being hit or falling?		
<ol> <li>Has a doctor ever ordered a test for your heart? (For example, ECG/EKG, echocardiogram)</li> </ol>			39. Have you ever been unable to move your arms or legs after being hit or falling?		
10. Do you get lightheaded or feel more short of breath than expected during exercise?			40. Have you ever become ill while exercising in the heat?		
11. Have you ever had an unexplained seizure?			41. Do you get frequent muscle cramps when exercising?  42. Do you or someone in your family have sickle cell trait or disease?		
12. Do you get more tired or short of breath more quickly than your friends			43. Have you had any problems with your eyes or vision?		
during exercise? HEART HEALTH QUESTIONS ABOUT YOUR FAMILY	Yes	No	44. Have you had any eye injuries?		
Has any family member or relative died of heart problems or had an	162	NO	45. Do you wear glasses or contact lenses?		
unexpected or unexplained sudden death before age 50 (including drowning, unexplained car accident, or sudden infant death syndrome)?			46. Do you wear protective eyewear, such as goggles or a face shield?  47. Do you worry about your weight?		
14. Does anyone in your family have hypertrophic cardiomyopathy, Marfan			48. Are you trying to or has anyone recommended that you gain or		
syndrome, arrhythmogenic right ventricular cardiomyopathy, long QT syndrome, short QT syndrome, Brugada syndrome, or catecholaminergic			lose weight?  49. Are you on a special diet or do you avoid certain types of foods?	-	
polymorphic ventricular tachycardia?			50. Have you ever had an eating disorder?	-	_
15. Does anyone in your family have a heart problem, pacemaker, or implanted defibrillator?			51. Do you have any concerns that you would like to discuss with a doctor?		
Has anyone in your family had unexplained fainting, unexplained			FEMALES ONLY		
seizures, or near drowning?			52. Have you ever had a menstrual period?		
BONE AND JOINT QUESTIONS	Yes	No	53. How old were you when you had your first menstrual period?		
17. Have you ever had an injury to a bone, muscle, ligament, or tendon that caused you to miss a practice or a game?			54. How many periods have you had in the last 12 months?  Explain "yes" answers here		
18. Have you ever had any broken or fractured bones or dislocated joints?			Explain you understance		
19. Have you ever had an injury that required x-rays, MRI, CT scan, injections, therapy, a brace, a cast, or crutches?					
20. Have you ever had a stress fracture?			<u> </u>		
21. Have you ever been told that you have or have you had an x-ray for neck instability or atlantoaxial instability? (Down syndrome or dwarfism)					
22. Do you regularly use a brace, orthotics, or other assistive device?					
23. Do you have a bone, muscle, or joint injury that bothers you?					
24. Do any of your joints become painful, swollen, feel warm, or look red?					
25. Do you have any history of juvenile arthritis or connective tissue disease?					
I hereby state that, to the best of my knowledge, my answers to t Signature of athleteSignature o			stions are complete and correct.  Date
